## STREETLIGHTING IMPROVEMENT ANALYSIS PETITION

We are requesting that Orange County evaluate potential improvements to streetlighting in our neighborhood.

**Important:** This petition is only to request a County analysis. It does not approve any project or cost increase.

The County will determine:

- What improvements are possible
- Estimated costs
- Potential impact to property taxes

We need at least 51 property owners to sign in order for the County to perform this analysis.

By signing below, you are only requesting that the County provide this information for review.

*Note: Only one signature per property is valid. Renters are not eligible to sign.*
